# PURCHASE AGREEMENT

Evolution Aircraft Company, hereafter referred to as E.A.C., an Oregon corporation, is the distributor of an experimental aircraft supplied in kit form for the homebuilder.

The Evolution aircraft requires inspection and certification by the Federal Aviation Administration (FAA) under provisions of the Federal Aviation Regulations (FAR's). Purchaser of the Evolution kit has read and thoroughly understands the FAR's as they apply to aircraft in the experimental category.

The Evolution kit, when properly constructed, will reproduce the successful original aircraft. E.A.C. and all Evolution sales representatives are not responsible and make no warranties, express or implied whatsoever, regarding the performance, flight characteristics, structural integrity or safety of the purchaser's completed aircraft and its component parts. Purchaser understands and agrees that there are many factors that affect the design integrity of his or her particular completed aircraft including design requirements for engine and propeller and requirements for aerodynamic and center of gravity characteristics. E.A.C. reserves the right to make recommended revisions in the plans, parts and construction of the aircraft without liability to E.A.C. as such revisions may be deemed advisable from time to time.

## ACCIDENT LIABILITY

Purchaser understands and agrees that there are many factors outside the control of E.A.C. that can significantly affect the safe operation of the Evolution aircraft. Such factors include the quality of construction by purchaser or others, maintenance procedures and repairs. E.A.C. does not warrant the integrity of component parts once they leave E.A.C.'s facility. Purchaser agrees to inspect all components prior to assembly for shipping and other damage.

Purchaser accepts sole responsibility for construction and operation of the Evolution aircraft constructed by him. Due to the many factors beyond E.A.C.'s control, purchaser releases E.A.C. and all sales representatives from any liability for any bodily injury or property damage arising from his or her construction, maintenance and use of any Evolution aircraft. Purchaser understands and agrees that the cost of the Evolution kit would be substantially higher should such condition not be made.

Purchaser understands that proprietary information concerning the Evolution is supplied to him by E.A.C. for his and only his express use in construction of the Evolution aircraft. This includes the aircraft part and design features and all written assembly documentation. This material will not be copied by purchaser for any use other than his own, nor will he allow any other persons to copy this material.

## ADDRESS OR OWNERSHIP CHANGE

**It may be necessary for E.A.C. or its sales representative to communicate with purchasers from time to time on information relating to safety, changes in design, construction and operation. Thus, purchaser understands and agrees to notify E.A.C. of any change of address or change of ownership of the Evolution aircraft whether completed or not. There is a fee associated with transferring ownership.**

## PAYMENTS AND REFUNDS

Orders for Evolution kits will be entered by the date of receipt of signed purchase agreement and deposit. Kit serial numbers will be assigned prior to kit delivery.

The deposit is refundable only within 30 days with a 25% cancellation fee applied. If buyer does not accept delivery (subject to all terms) within 18 months of kit availability the entire deposit will be forfeited. Evolution Aircraft Company will confirm by mail or email the proposed delivery date

to customer as soon as order is placed.

The kit price indicated on this order form is subject to change and should thus be verified prior to placing your order. The quoted kit price at time of deposit is guaranteed for nine months unless otherwise provided in writing. **Kit pricing is guaranteed to original purchasers only.** Please phone or write to verify the current kit price.

E.A.C. reserves the right to fully refund any deposit for any reason. This will then relieve E.A.C. and any of its sales representatives of any further obligation.

## ENGINE, PROPELLER, AVIONICS, OPTIONS

When you place an order for an engine, propeller, avionics, or any other item requiring full or partial payment, Seller, Evolution Aircraft Company places a purchase order for such item or items with outside vendors. Both the Seller and the Vendor rely upon your order and obligate themselves to others who provide the items for which you have placed an order. These items are not always readily returned to inventory or accepted back by the vendor. Therefore, all such advance deposits/payments made are non-refundable. Seller will attempt to negotiate with vendors for a partial return of your payment, but in any event there will be a 25% restocking/cancellation fee if you fail to timely pay the balance due at time of shipment and/or delivery. Delivery must be taken within 180 days from time of deposit/payment unless there is a vendor delay, otherwise current pricing may apply when delivery is taken.

## SHIPPING

All shipping costs are at buyer's expense, shipping FOB (freight on buyer) from E.A.C.'s U.S. facility. Standard shipping is by motor freight (except overseas) and all shipping charges are collect.

Upon receipt of your order with deposit, you will be notified by mail of the estimated shipment date of your Evolution kit. Purchaser must understand that this is only an estimate and the actual shipment date may be advanced or delayed. Shipment advances will be made only with purchaser approval.

Kit orders requesting specific delivery dates are subject to E.A.C. approval. Kit orders requesting earliest convenience delivery dates will be shipped as soon as possible. Should buyer request more than 30 days postponement upon notification of delivery, buyer will be subject to possible storage fees, buyer may be asked to pay off balance of kit payment or be subject to current kit pricing. Delivery of the instrument panel, which is part of the Evolution kit, must be accepted within 120 days after 2<sup>nd</sup> kit payment unless otherwise negotiated.

Due to possible vendor delays, some items may be temporarily out of stock when the kit is shipped. As backordered items arrive, these items will be shipped with the appropriate shipping charges applied.

## INSPECTION

E.A.C. is very careful to assure that the order is filled correctly and shipped securely. However, it is your responsibility to inspect your kit immediately upon arrival, checking against the part list and for shipping damage. If the purchaser participates in the builder assist program, inventory of the kit will be completed at the E.A.C. facility. If the purchaser does not participate in the builder assist program, then any discrepancies in the kit must be reported to E.A.C. within 30 days of receipt for any adjustments.
